This huge book is the ultimate authoritative and comprehensive guide to the world's most loved television series for the most dedicated of fans.

One of the most exciting new cars of 2004 is profiled in this beautiful book. The Ford GT is the modern version of the incredible GT40, a car created by Ford in the 1960s to beat the Ferraris at Le Mans-which they did! The success of the original GT40, coupled with its great looks, made it one of the most popular cars in automotive racing history. Ford has revived the spirit of the original race car with perhaps its most exciting new car in 30 years-the Ford GT. The new car has lines taken straight off the original GT40 and power supplied by a 500-hp V-8. Three Ford GTs will be built in 2003 to commemorate the 1-2-3 victory at Le Mans in 1966, and the car will see limited regular production beginning in June 2004. This book includes an in-depth analysis of how the car came to be, complete with original interviews with Ford execs and engineers as well as drawings of concept cars. Also included is a short chapter summing up the origins and race history of the GT40. Also a section discussing the concepts for GT40 revivals. Many of these cars have not been revealed in publications previously.

Ferrari has been producing race and road cars for more than 60 years. In the distinctive Ferrari Red, legendary cars with names like Monza, Testa Rossa, and Daytona turn heads from Monaco to Japan and around the world. In Ferrari, 60 milestone vehicles from across the company's history are profiled in detail, with a short history of the car, engine, and team, along with performance specs, trivia, and a detailed photo library. For any fan of Ferrari or performance cars in general, this is an enjoyable read full of valuable information and gorgeous color photos.

Offers standard prices for cars, pickups, sport utilities, and vans, as well as detailed model histories, certified used vehicle information, and buying advice.
