Bosch K-Jetronic seems to be a bit of a black art these days. Almost anyone you mention it to backs off and cringes. Hopefully this series of posts clears up some of that misinformation and scaremongering, and opens more people up to working with their KJet instead of binning it, or neglecting it until it inevitably fails.

Remove the air filter from the air flow sensor. The sensor plate must be flat. The chamfered edge of the sensor plate must face down. The word 'top' or five punch marks are stamped on the top of the sensor plate. The sensor plate must pass through the narrowest part of the funnel without touching the sides.
