Building pathology.  
Building pathology is  
a holistic approach to  
studying and  
understanding  
buildings, and in  
particular, building  
defects and  
associated remedial  
action . In a medical

# Where To Download

context, pathology is the study of diseases in order to determine their causes and prescribe treatment.

Similarly, building pathology involves the methodical study of buildings, their components, and environment, to address failures .
