When John Bandicut encounters an alien intelligence on Neptune ' s moon Triton, his life changes irrevocably. Urged by the alien quax now sharing his mind, he accepts an audacious mission—to steal a ship and hurtle across the solar system in a desperate bid for Earth ' s survival. Book 1 of The Chaos Chronicles, by the Nebula-nominated author of Eternity ' s End—with an Afterword by the author. Appeared in print from Tor Books. DRM-free ebook edition. REVIEWS: One of the best SF novels of the year —Science Fiction Chronicle " Masterfully captures the joy of exploration. " — Publishers Weekly " One of the very best things Carver has written, a traditional adventure filled with mystery and wonder and featuring a likable and believable protagonist thrust onto a stage for which he is ill prepared. " — Science Fiction Chronicle " Jeff Carver is a hard-of-writer who gets it right—his science and his people are equally convincing. Neptune Crossing combines his strengths, from a chilling look at alien machine intelligence, to cutting-edge chaos theory, to the pangs of finite humans in the face of the infinite. If you like intriguing ideas delivered in an exciting plot, this is your meat. " —Gregory Benford, author of the Galactic Center series " Reveals an alien encounter brushing hard against a soul, and takes us from there to the far reaches of the cosmos, all with the sure touch of a writer who knows his science. Jeff Carver has done it again! " —David Brin, author of Existence " A complex and believable protagonist—an ordinary man rising to extraordinary circumstances—and an alien presence that is at once convincingly strange and deeply real. I ' m really glad to have read this one. " —Melissa Scott, author of Dreamships and Trouble and Her Friends " A roaring, cross-the-solar-system adventure of the first water. The kind of stuff that made us all love science fiction. " —Jack McDevitt, author of Seeker and Chindi " High-octane space adventure: mystery, humor, theoretical physics, and one of the more interesting SF aliens you ' ve likely encountered in a long while. " —Allen Steele " With works such as The Infinity Link... and his popular Star Rigger novels, Carver won acclaim as a master craftsman of compelling hard science fiction. This captivating opener to a new series incorporating the emerging science of chaos theory should keep that reputation flourishing... Carver has created yet another electrifying scenario as well as a winning combination in Bandicut and the sometimes vulnerable yet superintelligent quax. First-rate entertainment. " —Booklist

Maintaining a question-and-answer format, this second edition provides simplified means of solving nearly 200 practical problems that confront engineers involved in the planning, design, operation and maintenance of steam plant systems. Calculations pertaining to emissions, boiler efficiency, circulation and heat transfer equipment design and performance are provided. Solutions to 70 new problems are featured in this edition.

The office of notary public has a long and proud history in our society. Their work is rarely glamorous, but it is so important that the highest courts in the nation routinely accept properly notarized documents as evidence in legal matters. In fact, the law governing notaries gives them the same mission as sworn law enforcement officers, "to serve and protect."

Identifies more than four hundred private, commercial, and military aircraft, and briefly describes the history and characteristics of each.

WRITING WITH A THESIS: A RHETORIC AND READER is based on the persuasive principle—the development and support of a thesis in order to persuade a reader, which is exactly the skill beginning writers in freshman composition just like you need to develop. The book dispenses clear and practical writing advice in a clear and practical way. Leavened with lots of good humor—in both its advice and in its examples of good professional writing—WRITING WITH A THESIS is renowned for being useful and enjoyable to read. Nineteen of the book's 50 professional essays are new to this edition and 3 of 10 student essays are also new, providing fresh voices, variety, and relevance. Almost all of the essays are short and easy to read so that class time can be devoted not to what the readings mean, but to what they mean for your writing. Students receive the most up-to-date information on MLA documentation with the enclosed tri-fold card providing NEW 2009 MLA Handbook formats.

Something is terribly wrong with Connor's mom—she keeps slipping into bizarre trances. Connor suspects that the key to his mom's strange behavior is an old art book filled with paintings of a woman who looks exactly like her. But the artist who created those paintings died before his mom was evenborn. Connor gets his chance to break the evil link between the past and the present when he is mysteriously whisked back in time to the 1920s. But can he save his mom—and himself—before it's too late?
