Lust and revenge are best served after sundown... Outlaw werewolves destroyed his home and killed his wife. But they made one mistake: they didn't kill him, too. Now, after ten lonely years honing his skills with a gun, Jacob Constantine is back in New Mexico, hell – bent on justice—until he's ambushed by bandits and saved by an angel on her own deadly crusade. WWith a gun slung low across her seductive hips and vengeance in her eyes, Serenity Campbell isn't who she seems to be. But neither is the mysterious bounty hunter who threatens to drive her desire into dangerous territory. Together they track their prey with the same intensity they circle one another. But will their growing passion be enough to right the wrongs of the past and bring two damaged hearts together?

From the New York Times & USA Today bestselling author who brought you the Nice Girl to Love trilogy, comes A Nice GUY to Love spin-off... Brian Sullivan has been in love twice in his lifetime. He lost his first love to early-onset Huntington's, and he lost the other more recently...to his brother. And somehow, his heart has managed to heal itself after both. Amazingly, without therapy. That doesn't mean Brian hasn't gotten more wary along the way, however. In fact, he's been thinking lately that maybe his brother's now retired nothing-but-flings rule isn't such a bad idea. Unfortunately, being the nice guy poster boy and all, he isn't exactly versed in the fine art of flings. So he looks to the outrageously 'unique, ' provokingly button-pushing Tessa Daniels for a crash course. There's absolutely no way he's falling in love with this one...right? Tessa has no idea what she was thinking telling Brian that she was some sort of fling expert. She's never been flung before and she sure as heck doesn't know where or how to begin flinging a guy like Brian. It was a temporary lapse in sanity, really--no doubt because of the can't-help-but-fall-for-him brain fuzz that hits her whenever he's around. Not only does the man have her being more herself than she's ever been in her life, but he's the only person she knows who seems to have as many demons and skeletons in the closet as she does. What's more, he's got her thinking of the one thing she stopped letting herself even hope for years ago. A happily ever after.

What happens to the nation when it is reconceived as a brand? How does nation branding change the terms of politics and culture in a globalized world? Branding the Nation offers a unique critical perspective on the power of brands to affect how we think about space, value and identity.

Taking another lesson from nature, the latest advances in image processing technology seek to combine image data from several diverse types of sensors in order to obtain a more accurate view of the scene: very much the same as we rely on our five senses. Multi-Sensor Image Fusion and Its Applications is the first text dedicated to the theory and practice of the registration and fusion of image data, covering such approaches as statistical methods, color-related techniques, model-based methods, and visual information display strategies. After a review of state-of-the-art image fusion techniques, the book provides an overview of fusion algorithms and fusion performance evaluation. The following chapters explore recent progress and practical applications of the proposed techniques to solving problems in such areas as medical diagnosis, surveillance and biometric systems, remote sensing, nondestructive evaluation, blurred image restoration, and image quality assessment. Recognized leaders from industry and academia contribute the chapters, reflecting the latest research trends and providing useful algorithms to aid implementation. Supplying a 28-page full-color insert, Multi-Sensor Image Fusion and Its Applications clearly demonstrates the benefits and possibilities of this revolutionary development. It provides a solid knowledge base for applying these cutting-edge techniques to new challenges and creating future advances.
